REGISTER OF RAINFALL IN 1910

FORM A2. BRITISH RAINFALL. 19 JAN 1911

Kept at Sheldon Rectory

in the County of Warwick

by Mrs Jones Bateman

RAIN GAUGE
Pattern
Diameter of top 8 in.
Height of top above Ground 1 ft. in.
" " " Sea Level ft.

Time of Observation 7 a.m.

Nearest Railway Station
Name Marston Green
Distance 2 Direction

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m., and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to Dr. H. R. Mill, 62, Camden Square, London, N.W.

BRITISH RAINFALL.
1 JAN 1910

Kept at Keresley Grange Coventry

in the County of Warwick

by Miss Helen Rotherham.

RAIN GAUGE
Pattern Snowdon - Negretti & Zambra
Diameter of top 5 in.
Height of top above Ground ft. 10 in.
" " " Sea Level 413 ft.

Time of Observation 9 a.m.

Nearest Railway Station
Name Coventry
Distance 3 Direction

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m., and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to Dr. H. R. Mill, 62, Camden Square, London, N.W.

REGISTER OF RAINFALL IN 1910

FORM A2.
BRITISH RAINFALL.
4 JAN 1911

Kept at Keresley Grange. Coventry

in the County of Warwick

by Helen Rotherham

RAIN GAUGE
Pattern
Diameter of top 5 in.
Height of top above Ground — ft. 10 in.
" " " Sea Level 413 ft.

Time of Observation 9. a.m.

Nearest Railway Station
Name Coventry
Distance 3 m. Direction S.W

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m., and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to Dr. H. R. Mill, 62, Camden Square, London, N.W.

Jan. 1, following.

by Miss Prater

RAIN GAUGE Pattern
Diameter of top ...... in.
Height of top above Ground ...... ft. ...... in.
" " " Sea Level ...... ft.

Time of Observation ......

Nearest Railway Station Name ......
Distance ...... Direction ......

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m., and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to Dr. H. R. Mill, 62, Camden Square, London, N.W.

FORM A2.
BRITISH RAINFALL.

10 JAN 1910

REGISTER OF RAINFALL IN 1909

Kept at Hampton Manor
in the County of Warwickshire
by H. R. Cooper

RAIN GAUGE
Pattern
Diameter of top 8 in.
Height of top above Ground ft. 7 in.
" " " Sea Level 345 ft.

Time of Observation 9 a.m.

Nearest Railway Station
Name Hampton-in-Arden
Distance ¼ M Direction North

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m., and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to Dr. H. R. Mill, 62, Camden Square, London, N.W.

FORM A2. BRITISH RAINFALL.

31 JAN 1911

REGISTER OF RAINFALL IN 1910

Kept at Radford House

in the County of Warwickshire 1

by C E G Hatherell Esq

RAIN GAUGE
Pattern
Diameter of top 5 in.
Height of top above Ground 1 ft. 2 in.
" " " Sea Level 240 ft.

Time of Observation

Nearest Railway Station
Name
Distance Direction

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m., and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to Dr. H. R. Mill, 62, Camden Square, London, N.W.

REGISTER OF RAINFALL IN 1910

FORM A2. BRITISH RAINFALL.

26 JUL 1911

Kept at Snitterfield

in the County of Warwick 1

by The Corporation of Stratford upon Avon

RAIN GAUGE
Pattern
Diameter of top 8 in.
Height of top above Ground 1 ft. 6 in.
" " " Sea Level 274 ft.

Time of Observation 8 am.

Nearest Railway Station
Name Stratford upon Avon
Distance miles 3 Direction South.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m., and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to Dr. H. R. Mill, 62, Camden Square, London, N.W.

REGISTER OF RAINFALL IN 1909

FORM A2. BRITISH RAINFALL.

- 3 JAN 1910

Kept at The Hall, Shottery Stratford on Avon

in the County of Warwick

by R. C. Carter
Reginald

RAIN GAUGE	Pattern as usual
	Diameter of top .... in.
	Height of top above Ground .... ft. .... in.
	" " " Sea Level .... ft.

Time of Observation ....

Nearest Railway Station: Name .... Distance .... Direction ....

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m., and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to Dr. H. R. Mill, 62, Camden Square, London, N.W.

FORM A2.
BRITISH RAINFALL.
2 JAN 1911

REGISTER OF RAINFALL IN 1910

Kept at Shottery Hall

in the County of Warwick

by Reginald C Carter

RAIN GAUGE
Pattern
Diameter of top .... in.
Height of top above Ground .... ft. .... in.
" " " Sea Level .... ft.

Time of Observation

Nearest Railway Station
Name
Distance .... Direction

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m., and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to Dr. H. R. Mill, 62, Camden Square, London, N.W.

FORM A2.
BRITISH RAINFALL.

17 JAN 1911

REGISTER OF RAINFALL IN 1910

Kept at Stratford-on-Avon

in the County of Warwick

by Miss E. H. Smith

Rain Gauge { Pattern
Diameter of top 12 in.
Height of top above Ground 6 ft. in.
" " " Sea Level 146 ft.

Time of Observation 8.30

Nearest Railway Station { Name Stratford on Avon
Distance 3/4 mile Direction WSW

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m., and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to Dr. H. R. Mill, 62, Camden Square, London, N.W.

IMPORTANT NOTE.—Rain should be measured daily at 9 a.m., and the result entered to the previous day. If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to Dr. H. R. Mill, 62, Camden Square, London, N.W.

If an Observer prefers not to conform to this almost universal rule, he is earnestly requested to add the reading at 9 a.m. on 1st January of the following year in the space provided for it at the end of this paragraph. Full instructions for the measurement of rain, the selection and placing of rain gauges, and particulars as to the British Rainfall Organization are given in "*Rules for Rainfall Observers*," sent post-free on application to Dr. H. R. Mill, 62, Camden Square, London, N.W.
